Nadia Waheed • Lawrence Yannuzzi • Marco Zarbin • Sandrine Zweifel

Dear Colleagues and Friends,

MaculArt is an international meeting dedicated to the wonderful state of the art in field of macula. It is our great pleasure to announce the third International MaculArt Meeting, which will be held in the beautiful city of Paris, France on June 23-25, 2019. Due to the great success of the first and second editions, the committee decided to renew this wonderful experience and organize MaculArt 2019.

Top Ophthalmologists from around the globe will be present to share their knowledge and discuss major advances in our field. The scientific program of MaculArt 2019 will include clinical case sessions, poster sessions, free paper sessions, and 14 faculty sessions dedicated to exudative AMD, vein occlusion, diabetic maculopathy, myopic maculopathy, uveitis, and much more.

MaculArt 2019 will also give the opportunity to highlight innovations, hot topics and new imaging such as OCT angiography in addition to 3 lectures and 4 symposia given by experts. We are also pleased to host a panel of international experts, which will provide a forum for retina thought leaders to present data and engage in a lively discussion. A jury will nominate the best MaculArt image Prize Award. Finally MaculArt 2019 will also hold the Retina Games, a challenge driven by residents and fellows

We encourage you to contribute to the scientific program by submitting your abstracts and look forward to your support and active involvement in this exciting event.

We welcome you to join us in our magical city and enjoy all that Paris has to offer, from haute cuisine, world-class entertainment, summer shopping sales, to breath-taking museums.

We will be honored by your presence.

The MaculArt Organizing Committee:

Eric SOUIED and the FFM Organizing Committee

Eric Souied, Mayer Srour

and Laurent Kodjikian, Adrian Koh, Giuseppe Querques, Catherine Creuzot Garcher,
Alexander Brucker, Salomon Yves Cohen, Anat Loweinstein, Sam Razavi,
